

MULTI-DIRECTIONAL KNITTING

Based on Modular Knits by Iris Schreier

Taught by Barbara Kerr

Materials list

Iris Schreier has licensed me to teach her technique. To do so you must use her yarn for the class.

3 skeins of either silk or merino will make three scarves, 1 skein for each.

Use the recommended needle size for each of the yarns.

There is no homework.

Bring your enthusiasm for learning a terrific new technique and make scarves that elicit the question, “How did you do that?”

Classroom Etiquette

Due to some student’s allergies, I ask that you refrain from using perfume.
